

## ACCESSIBILITY STATEMENT

When the School was extended in 2001 particular attention was given to wheelchair access.

The rear of the building can be accessed by wheelchair with a portable ramp.

All of the doors in this area are wide enough for wheelchair access.

One toilet is adapted with hand-rails.

Step and stairs in the building have extra hand rails at children's height.

We had a child at Deepdene whose father used a wheelchair. He regularly picked his daughter up from Deepdene. If he did not choose to use the rear entrance but wished to pick his daughter up from the Nursery ext, we had an arrangement in place where we would take his daughter down the steps to him.
